

## Burton Bradstock Apple Pressing 21 October 2018

### Risk Assessment

<b>Risk</b>	<b>Level</b>	<b>Action</b>
Electrocution	serious	Apple mill and socket/plug under cover, with close supervision by organisers
Mis-use of apple mill	serious	Design of mill guards against injury. Apple mill will be operated only by/ under the strict supervision of experienced users
Apple Press unstable	serious	Organisers to ensure a strong and stable base for the apple press
Slipping due to excess water	moderate	Ensure design of stations allows for safe water drainage. Organisers will test in advance.
Trip Hazard: electricity and water supplies from Greenwich Cottage	moderate	Use cable cover and restrict public access across all cables and pipes
Use of knives	minor	Advice to volunteers preparing apples. Supervision by organisers
Poor weather	minor	Organisers will check marquee robustness
